Premier	Madison Square	Maple	Antique Evergreen	
Description				
<p>When the owners built their vacation home in 2009, they wanted to add modern touches while still remaining true to the home's location on family's farm in the country. The design of the cabinetry complements the house's Craftsman style with massive posts and arching beams. The selected finishes of painted sage green and distressed midnight black are true to the design and add to the lived in quality. The one of a kind characteristics come not just from the cabinet style, but also from the bead board, seeded glass door inserts and carved turnings. The hammered copper sinks with reverse-hammered stars add to the natural theme.</p> <p>The layout is very user friendly, while still excellent for family dinners and entertaining with the curved raised seating area. Random distressed wood plank flooring, iron cabinet pulls, 2x2 slate mosaic backsplash, timber beamed wood ceiling, and natural stone countertops are true to the architecture of the home. The industrial lighting and professional style stainless steel Thermador range top, Thermador double ovens, and Sharp microwave drawer add to the home's modernized appeal. Other appliances are fully integrated and hidden behind matching wood cabinet panels. These include the Thermador 36" French door refrigerator, warming drawer and dual dishwashers.</p>
