Select	Prairie	Cherry		Light
Description				
<p>This young couple had a beautiful traditional bungalow home, but with it came a cramped, dark kitchen that felt isolated from the dining and living room areas. And there was not near enough storage for their growing family. They wanted something more dramatic and open that fit the period of their home with some updated features.</p> <p>Problems:</p> <ul style="list-style-type: none"> -Small, cramped space with a secluded eating area behind -All white! They needed some color -Inadequate lighting made it feel dark and cave like -A low window limited where the cabinetry could go -The range and refrigerator were too close and didn't have enough landing space -Not enough storage <p>Solutions:</p> <ul style="list-style-type: none"> -Took out peninsula so that the line of sight continued thru kitchen -Removed soffits so that cabinetry could extend to the ceiling, giving them much more cabinet storage -Wellborn Prairie Cherry light cabinetry provided warmth and a style that complimented the style of the home -Solid granite countertops provided a beautiful and low maintenance surface perfect for a busy family -Subway tile backsplash provided an easy clean, beautiful backdrop that is period to the home -Updated recessed can lighting and under cabinet lighting helped illuminate the entire space -A 2 bin waste basket pullout next to the sink gave them a place to hide their trash and made for easy prep and clean up -Pullouts around the range gave them plenty of space to store the pots and pans that had been hanging -We added a banquette with tall storage to on the back wall creating both a beautiful accent and extra storage as well as a great surface for serving <p>The kitchen was finished off with a rich burgundy paint. They were thrilled with the dramatic look they had in their new space.</p>
