<b>Series</b>		<b>Door Style</b>	<b>Species</b>	<b>Finish</b>
Premier		Monterey	Maple	Divinity
<b>Description</b>				
<ul style="list-style-type: none"> <li>• When you walked into this townhome you were faced with an outdated and cramped kitchen. The customer wanted her guests to be greeted by a bright, “up to date” space which incorporated a warm classic style. Now, as you enter this townhome you are drawn into the sophisticated, modern kitchen with its touch of European styling.</li> <li>• The diminutive space and placing of skylights made opening the kitchen difficult. By expanding the room into the laundry room both obstacles were overcome.</li> <li>• The washer and dryer had to be placed inside the kitchen which created a blemish to the design. By “hiding” the washer and dryer behind matching Wellborn cabinetry customized bi-fold doors, a balance and continuity was established which ultimately contributed to the design of this space.</li> <li>• With the extensive choices of door styles and accessories that Wellborn offers, cabinets that were oak and ordinary were replaced by Wellborn Glacier Maple cabinets. This made a homely kitchen come to life with sophistication and warmth.</li> <li>• White tile countertops were replaced with beautiful granite.</li> <li>• Using the colors in the granite a distinctive backsplash in a three-dimensional design was an artful addition, a pleasing change from the plain blue and white tile backsplash that existed before.</li> <li>• The design of the workspace is redefined by changing a closed “u” to a more open design. The island has an elegant 6cm OG round over edge, giving prominence to the black granite composite under mount sink.</li> <li>• The heated tile floor provided a literal warmth which allowed the customer to function a little easier on those cold winter mornings, as opposed to the vinyl floor which existed before.</li> <li>• Recessed lighting, classy pendants and natural skylights created general and task lighting which made a dreary kitchen more brilliant and workable, and added to the panache of the design.</li> <li>• Detail was followed all the way down to the hardware on the cabinet doors in a collaboration of different styles. This created a customized look, which the client loved.</li> </ul>
