FOR IMMEDIATE RELEASE ON  
November 21, 2013

## Wellborn Cabinet, Inc. Announces a New Finish - Cloud

As painted white cabinetry remains one of the top finishes, light colors are also gaining in popularity. Wellborn answers this light color trend with a variety of choices. In 2014, Wellborn will introduce Cloud to its spectrum of stain families.

As in its name, Cloud displays a soft and light translucent stain. Cloud is available with a Slate or Sugar glaze to add the perfect detailed look. Add a Cloud finish to any Cherry, Character Cherry, Maple, Character Maple, Oak or Hickory species. Cloud will be available to order on July 14, 2013 in the Premier Series, Elegant Bath Collection, and Estate Custom Collection.
